There are 3 courses offered during the VI ENDO WEEK:

- October 21 - [Vascular Embolization Course](#)
- October 22 - [Endovascular Peripheral Interventions](#)
- October 23 - [Complex Endovascular Aortic Repair \(BREVAR, FEVAR\)](#)

Endovascular Peripheral Interventions

This one-day interdisciplinary course is designed to teach practical skills in endovascular treatment of peripheral occlusive disease pathologies. The attendees can practice endovascular techniques, PTA and stenting in small groups on dedicated simulators. The main focus is lying on different techniques and the decision making process. For the simulator training sessions experienced tutors are available. The course is aimed for vascular surgeons, interventional radiologists, angiologists and radiographers.

Course Content

- To learn indications for treatment and the scientific evidence
- To learn endovascular materials and tools
- To learn the workflow of PTA/stenting in arterial occlusive disease
- To learn complication management and follow-up of patients
- To practice on real and virtual training simulators

Program

08.45-09.00	Registration
09.00-09.15	Welcome, Introduction, course targets
09.15-10.00	Indication for treatment, decision-making process, scientific evidence
10.00-10.30	Knowledge of materials and tools; special techniques, closure devices
10.30-11.00	Break
11.00-11.30	Workflow femoral artery PTA/stenting
11.30-12.00	Complication management and follow-up of patients
12.00-12.30	Distinctiveness of interventions in the popliteal segment
12.30-13.15	Lunch
13.15-16.45	Practical exercises on training simulators in four groups – rotation (45 min per station, one tutor each station): Station 1: simulation training 1 Station 2: simulation training 2
14.45-15.15	Break
	Station 3: case discussions (case in the box) Station 4: closure device practice
17.00-17.30	Discussion, Feedback session
17.30	End of course

Target Group

Vascular surgeons
Angiologists
Radiologists
Radiographers
