

## Interdisziplinäre Onkologische Fortbildung

| Datum      | Thema                                                                                                                                                                          | Redner                       | Format       | Diskussant                                       |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------|--------------|--------------------------------------------------|
| 31.05.2023 | Neoadjuvante Therapie beim mikrosatelliten instabilen Kolonkarzinom                                                                                                            | Prof. V. Hess, Onkologie USB | Fachvortrag  |                                                  |
| 07.06.2023 | Indikationen für die neoadjuvante Therapie bei Ösophagus und Magenkarzinomen                                                                                                   | Prof. Dr. A. Billeter, Chir  | Fachvortrag  |                                                  |
| 14.06.2023 | Hepatic arterial infusion therapy                                                                                                                                              | PD Dr. Ph. Müller, Chir      | Fachvortrag  |                                                  |
| 21.06.2023 | Evaluation of Adjuvant Chemotherapy in Patients With Resected Pancreatic Cancer After Neoadjuvant FOLFIRINOX Treatment                                                         | Dr. Ch. Kümmerli, Chir       | Journal Club |                                                  |
| 28.06.2023 | FLOT vs. Radiochemotherapie beim Ösophaguskarzinom                                                                                                                             | Dr. K. Herzog, Chir          | Fachvortrag  |                                                  |
| 05.07.2023 | Resection margin status at the portomesenteric axis may not determine oncologic outcome after pancreaticoduodenectomy for lymph node-positive pancreatic ductal adenocarcinoma | Dr. S. Erdem-Sanchez, Chir   | Journal Club |                                                  |
| 12.07.2023 | Value of immunonutrition in patients undergoing pancreatic resection: a trial sequential meta-analysis                                                                         | Dr. Rosita Sortino, Chir     | Journal Club |                                                  |
| 19.07.2023 | Timing of rectal cancer surgery after short-course radiotherapy national database study                                                                                        | Dr. B. Wiesler, Chir         | Journal Club | Dr. A. Papachristofilou, Radio-Onko              |
| 26.07.2023 | Watch and wait nach Radio-Chemotherapie beim Rektumkarzinom                                                                                                                    | PD Dr. M. von Strauss, Chir  | Fachvortrag  |                                                  |
| 02.08.2023 | Charting co-mutation patterns associated with actionable drivers in intrahepatic cholangiocarcinoma                                                                            | PD Dr. P. Müller, Chir       | Journal Club | Prof. Dr. V. Hess, Onko; PD Dr. M. Matter, Patho |
| 09.08.2023 | Five-Year Survival Outcomes of Laparoscopy-Assisted vs Open Distal Gastrectomy for Advanced Gastric Cancer The JLSSG0901 Randomized Clinical Trial                             | Dr. L. Fourie, Chir          | Journal Club |                                                  |
| 16.08.2023 | Perioperative or only adjuvant gemcitabine plus nab-paclitaxel for resectable pancreatic cancer (NEONAX): a randomized phase II trial of the AIO pancreatic cancer group       | Dr. C. Kümmerli, Chir        | Journal Club |                                                  |
