Dear Colleagues,

We are thrilled to welcome you to the NextGen Senology 2026, organized by the Young Swiss Society Senologists Subgroup of the Swiss Senology Society. Since our founding in 2018, our primary goal has been to support young doctors (up to 45 years of age) who are dedicated to the evolving field of Senology.

This marks our third educational event, following the success of two well-attended Masterclasses in the summers of 2022 and 2024. This year, we are excited to bring a fresh perspective to the event with a new name - NextGen Senology - to give it a new energy and a vibrant atmosphere.

We have carefully designed a multidisciplinary faculty of passionate speakers and organized an innovative scientific program, along with hands-on workshops that we hope will inspire and challenge you. Our mission is to strengthen our Young Senologists Community, foster collaboration, and learn together to improve the care we provide to our breast cancer patients every day.

We are looking forward to seeing you in Bern, where we will join forces to continue advancing in this incredible field of medicine.

Warm regards,

The Scientific Committee
Swiss Society of Senology

Dr. Thanh Lam
PD Dr. Claudia Rauh
Dr. med. Sara Plavic
Dr. med. Kavita Däster
Dr. Liliana Castrezana López

SCIENTIFIC PROGRAM

07.45-08.25 Registration & welcome coffee
