

26.04.2026

**00:00–01:00 ePoster session (self-study)
Emergency surgery (self-study)**

ePoster terminal (self-study)

00:00-00:00	Chicken or egg? Uncommon presentation of De Garengeot hernia
PS01.01	Jay Menon (Basildon)
00:00-00:00	A rare case of acute gastric dilatation due to superior mesenteric artery syndrome in an elderly patient
PS01.02	Ashraf F Hefny (Al Ain), Fatima Al Kaabi (Al Ain), Alyazia Al Azeezi (Al Ain)
00:00-00:00	Vagabond ureter - A trap for the unwary hernia surgeon
PS01.03	Jay Menon (Basildon)
00:00-00:00	A Not-So-Empty Pelvis: When a breast implant finds a new home
PS01.04	Chiara Scorziello (Rome)
00:00-00:00	Surgical management of acute appendicitis in a Spiegel Hernia: A case report
PS01.05	María Victoria Vieiro-Medina (Valdemoro, Madrid)
00:00-00:00	Rupture of a splenic artery aneurysm: Case report and review of the literature
PS01.06	Ricardo Soto Gómez (Madrid), Guillermo Gómez García (Madrid), Manuel Fernandez Rodriguez (Madrid), Cristian Grillo Marín (Madrid), Javier Callau Pontaque (Madrid), Celia Fidalgo Martínez (Madrid), Alonso Sastre Marcos (Madrid), Alejandro Ducos Torrubiano (Madrid), Natalia Casanueva Hernández (Madrid), Lola Enríquez Comendador (Madrid)
00:00-00:00	Blunt cardiac tamponade evaluation and management: A case report
PS01.07	Sunil Kumar (Patna)

conventus

CONGRESSMANAGEMENT

00:00-00:00 Intestinal perforation as the first manifestation of lymphoma in a lung transplant patient: Case report
PS01.08 Natalia Casanueva Hernández (Madrid), Cristian Grillo Marín (Madrid), Manuel Fernandez Rodriguez (Madrid), Javier Callau Pontaque (Madrid), Celia Fidalgo Martínez (Madrid), Ricardo Soto Gómez (Madrid), Alonso Sastre Marcos (Madrid), Alejandro Ducos Torrubiano (Madrid), Lola Enríquez Comendador (Madrid)

00:00-00:00 Dog bite forearm injury
PS01.09 Jan Konečný (Brno)

00:00-00:00 Massive hemorrhage due to pancreatic necrosis: A case report
PS01.10 Guillermo Gómez García (Madrid)

00:00-00:00 Strangulated iatrogenic diaphragmatic hernia – A rare complication of thoracic surgery
PS01.11 Raquel Gomes (Ponte de Lima)

00:00-00:00 Obstructive ileus with bowel necrosis 24 hours after cesarean section – A rare case
PS01.12 Theodoros Piperos (Athens)

00:00-00:00 Intestinal obstruction due to infiltration by a mucinous tumor of the distal third of the appendix
PS01.13 Víctor Lombardo Lliró (Palma Mallorca)

00:00-00:00 Is a flap necessary in Fournier's gangrene with extensive resection?
PS01.14 Cristina González Prado (Burgos)

00:00-00:00 Spleen on the move: A rare cause of hemorrhagic shock
PS01.15 Carolina Renda Rodrigues (Almada)

00:00-00:00 Parastomal evisceration: A rare and life-threatening complication after laparoscopic colostomy
PS01.16 Lorena Sobrino-Brenes (Seville)

conventus

CONGRESSMANAGEMENT

00:00-00:00
PS01.17 The optimal length of antibiotic therapy for acute diverticulitis (Hinchey 1a, 1b, 2a and 2b) Non-Operative Management (NOM): A retrospective, single-center study
Carolina Perali (Milan), Luca Ghirardelli (Milan), Enrico Ortolano (Milan), Eleonora Lunghi (Milan), Francesca di Vittorio (Milan), Tommaso Colombo (Milan)

00:00-00:00
PS01.18 Left diaphragmatic rupture following high-energy blunt thoracoabdominal trauma: Early recognition and surgical management
Fábio Correia-Viveiros (Viana do Castelo)

00:00-00:00
PS01.19 A giant hernia, a tiny perforation, and a big problem
María Victoria Vieiro-Medina (Valdemoro, Madrid)

00:00-00:00
PS01.20 Acute compartment syndrome of the lower limb following an attempted suicidal drug injection
Beatriz Madureira Ramos (Viseu)

00:00-00:00
PS01.21 Recurrent duodenal GIST presenting as life-threatening gastrointestinal bleeding: A diagnostic and surgical challenge
Ali Akbar Shah (London)

00:00-00:00
PS01.22 Cutting it close: Artery and nerve injury of the arm from a glass fragment
Maria Costa (Aveiro)

00:00-00:00
PS01.23 Perforated abscessed hematoma of a giant spleen as a rare cause of pneumoperitoneum
Florentina-Roxana Radu (Bucharest)

00:00-00:00
PS01.24 Strangulated hiatal hernia with gastric perforation as a rare cause of septic shock
Florentina-Roxana Radu (Bucharest)

00:00-00:00
PS01.25 Pediatric foreign body aspiration: Current evidence and clinical implications – A narrative review
Tainá Avanci (Unicamp), Andrea de Melo Alexandre Fraga (Campinas)

00:00-00:00
PS01.26 Escaping through a narrow path: An unusual perforated appendicitis presentation
Filipa Peres (Vila Real)

conventus

CONGRESSMANAGEMENT

00:00-00:00 Colorectal perforation following seat-belt injury: Two cases report
PS01.27 Martina Binda (Monza)

00:00-00:00 Vaginal cuff dehiscence with small bowel evisceration – Case presentation
PS01.28 Alexandru-Cristian Rusin (Bucharest)

00:00-00:00 Lesson learnt from long-term management of patients with percutaneous cholecystostomy waiting for definitive treatment
PS01.29 Eugenia Capozzella (Trieste)

00:00-00:00 Hemorrhagic shock following cardiopulmonary resuscitation and fibrinolysis: A rare complication of resuscitative thoracoabdominal trauma
PS01.30 Nuno Gonçalves (Braga)

00:00-00:00 Impact of intraoperative rectoscopy on anastomotic leak and postoperative outcomes in emergency sigmoidectomy
PS01.31 Sandra Borrego Canovaca (Seville)

00:00-00:00 Perforated gastric remnant ulcer: An often overlooked complication of bariatric surgery
PS01.32 Diogo Acosta (Ponta Delgada)

00:00-00:00 Intentional foreign body ingestion leading to jejunal impaction requiring surgical extraction in a patient with severe Anorexia Nervosa and borderline personality disorder
PS01.33 Victoria Antolín Sánchez (Valdemoro, Madrid), María Victoria Vieiro-Medina (Valdemoro, Madrid)

00:00-00:00 Face and neck phlegmons in children. A series of case reports
PS01.34 Anna Timofeeva (Moscow)

00:00-00:00 Clinical impact of inadequate empirical antibiotic therapy in acute calculous cholecystitis
PS01.35 Maite de Miguel Palacio (Barcelona), Ana-María González-Castillo (Barcelona)

00:00-00:00 Esophageal perforation from a swallowed dental prosthesis: The critical role of general surgery in emergency management
PS01.36 Maria Iglésias (V.N.Gaia)

01:00–02:00 ePoster session (self-study) Visceral trauma (self-study)

ePoster terminal (self-study)

01:00-01:00 Non-operative management for high-grade renal trauma with splenic injury in pediatric patients: A case report
PS02.01 Jungchul Kim (Gwangju)

01:00-01:00 Emergency laparotomies in trauma management: A six-year case series
PS02.02 Greta Ahrens (Hamburg)

01:00-01:00 Isolated gastric transection due to blunt trauma in an adolescent
PS02.03 Maximiliano Ezequiel Baudino Depetris (Burgos)

01:00-01:00 Use of biologic mesh in contaminated visceral trauma cases
PS02.04 Bianca-Maria Teicu (Prescot)

01:00-01:00 Laparoscopic biological mesh repair of a traumatic Spigelian hernia after blunt abdominal trauma: A case report
PS02.05 Annalisa Coppola (Milan), Luca Ghirardelli (Milan), Carolina Perali (Milan), Eleonora Lunghi (Milan), Claudia Arcangeli (Milan), Enrico Ortolano (Milan)

01:00-01:00 The role of exploratory laparoscopy in penetrating abdominal trauma – A clinical case report
PS02.06 Filipa Peres (Vila Real)

26.04.2026

02:00–03:00 ePoster session (self-study) Orthopaedic trauma (self-study)

ePoster terminal (self-study)

conventus

CONGRESSMANAGEMENT

02:00-02:00 PS03.01 Rotational malalignment in tibial shaft fractures: A systematic review of incidence and outcomes
Jan van Meirhaeghe (Ghent)

02:00-02:00 PS03.02 A blind spot in shoulder trauma: The missed posterior dislocation and the need for vigilance
Ke Xin Magneline Ang (Singapore)

02:00-02:00 PS03.03 Living with periprosthetic joint infection: Psychological insights from qualitative analysis
Dorina Zsófia Gárgyán (Szeged)

02:00-02:00 PS03.04 Proximal femoral nailing in intertrochanteric fractures using the lateral decubitus position: A practical and efficient alternative to the fracture table
Sahil Kale (Belgavi)

02:00-02:00 PS03.05 Surgical outcomes of segmental diaphyseal forearm fractures in adults: A small case series on plate osteosynthesis, intramedullary nailing, and other surgical methods
SangHyun Lee (Busan)

02:00-02:00 PS03.06 Successful two-stage treatment of a young polytrauma patient in a tertiary hospital: Our experience
Andreas Filippopoulos (Patras)

02:00-02:00 PS03.07 From ankle sprain to complex regional pain syndrome – The impact of a missed calcaneocuboid dislocation
Claudia Frenz (Ulm)

03:00–04:00 ePoster session (self-study) Polytrauma (self-study)

ePoster terminal (self-study)

03:00-03:00 PS04.01 Damage control surgery in a firearm with multiple intestinal and liver injuries
Marta Gutiérrez Andreu (Madrid)

conventus

CONGRESSMANAGEMENT

03:00-03:00 Retrohemoperitoneum secondary to a cardiac injury
PS04.02 Marta Gutiérrez Andreu (Madrid)

03:00-03:00 Evaluating the role of Massive Transfusion Protocol (MTP) nurses on mortality rates for hemorrhagic shock: A retrospective single-centre study
PS04.03 Jeslin Lim (Singapore)

03:00-03:00 A severe trauma after a road traffic accident – A case report
PS04.04 Filipa Coelho (Porto)

03:00-03:00 Quad bike-related chest trauma: Patterns and outcomes
PS04.05 Ashraf F Hefny (Al Ain), Hamad Al Shehhi (Al Ain)

03:00-03:00 From damage control to definitive repair: Multidisciplinary management of complex thoracoabdominal shotgun trauma with retained pericardial bullet
PS04.06 Saovaros Phookaew (Bangkok)

03:00-03:00 Polytrauma patient: Challenges in patient positioning and fracture fixation order in the operating room
PS04.07 Marina García Cantarero (Majadahonda)

03:00-03:00 Renal trauma in the context of polytrauma: When shock prevails despite timely intervention
PS04.08 Carolina Fernandes (Viseu)

03:00-03:00 Laparoscopic peritoneal lavage after grade IV hepatic trauma
PS04.09 Tommaso Colombo (Milan), Luca Ghirardelli (Milan), Annalisa Coppola (Milan), Claudia Arcangeli (Milan), Carolina Perali (Milan), Eleonora Lunghi (Milan)

03:00-03:00 Favorable pregnancy outcome following polytrauma with mediastinal injury diagnosed at 18 weeks of gestation: A case report
PS04.10 Shamsa Al Awar (Al Ain)

03:00-03:00 Ten years on the edge: Lessons from managing complex pelvic trauma in the UAE
PS04.11 Jody Robert Miller (Dubai), Carlos José Yáñez Benítez (Dubai), Shazad Yousaf (Dubai)

conventus

CONGRESSMANAGEMENT

03:00–03:00 High-energy fall in bilateral hip arthroplasty: Triple lower limb fracture challenge
PS04.12 Elvira Moreda López (Cuenca)

03:00–03:00 Successful non-operative management of a high-grade splenic fracture in a hemodynamically stable adolescent: A case report
PS04.13 Nuno Gonçalves (Braga)

04:00–05:00 ePoster session (self-study) Education (self-study)

ePoster terminal (self-study)

04:00–04:00 Experience report on the impact of socio-educational extension activities on the development of soft skills among medical students
PS05.01 Beatriz Pinheiro (Campinas)

04:00–04:00 An open-source, hands-on teaching programme to improve trainee competency in quality improvement
PS05.02 Anne Parker (Livingston)

04:00–04:00 Iatrogenic spontaneous pneumothorax after dry needling therapy: Case report and literature review
PS05.03 Idoia Dominguez Arroyo (Burgos), Ana Armendáriz Llanos (Burgos)

04:00–04:00 Telescoped colonic stenting as an effective bridge to elective surgery in malignant left colonic obstruction: A case report
PS05.04 Lola Enríquez Comendador (Madrid), Cristian Grillo Marín (Madrid), Natalia Casanueva Hernández (Madrid), Manuel Fernandez Rodriguez (Madrid), Celia Fidalgo Martínez (Madrid), Javier Callau Pontaqué (Madrid), Guillermo Gómez García (Madrid), Ricardo Soto Gómez (Madrid), Alejandro Ducas Torrubiano (Madrid), Alonso Sastre Marcos (Madrid)

04:00–04:00 Saving lives in the Myanmar jungle. A humanitarian educational mission in a war zone. Experience and future prospects for a teaching model
PS05.05 Andrea Coppola (Cava De' Tirreni)

05:00–06:00

**ePoster session (self-study)
Miscellaneous (self-study)**

ePoster terminal (self-study)

05:00–05:00 Digital infection by oral microbiota caused by nervous dermatophagia
PS06.01 Juan David Serrano Alonso (Cuenca)

05:00–05:00 Use of aztreonam and a handcrafted cement-coated hip prosthesis in a complex patient: A case report
PS06.02 Luis Felipe Fort Gómez (Villar de Olalla)

05:00–05:00 Multi-centre audit on adherence to NICE guidelines for venous thromboembolism prophylaxis for patients undergoing surgery for appendicitis and its effect on the number of venous thromboembolism events
PS06.03 Isobelle Blinkhorn (Stockport), Iyad Baydoun (Manchester)

05:00–05:00 Sigmoid colon perforation secondary to traumatic sexual practice (Fisting): Emergency surgical management and favorable outcome
PS06.04 María Victoria Vieiro-Medina (Valdemoro, Madrid)

05:00–05:00 Adhesions and fluid collections after use of an anti-adhesion system: A paradoxical case
PS06.05 Víctor Lombardo Lliró (Palma Mallorca)

05:00–05:00 A life changed in seconds: Traumatic upper limb amputation – A case report
PS06.06 Catarina Leonardo de Viveiros (Maia)

05:00–05:00 When man's best friend bites back: Two case reports of upper limb dog bite injuries
PS06.07 Maria Costa (Aveiro)

05:00–05:00 Seconds to save a life: Emergency department surgical airway in high-stakes trauma cases
PS06.08 Carlos José Yáñez Benítez (Dubai)

05:00–05:00 Intestinal obstruction due to foreign bodies in a patient with Down syndrome and Alzheimer's disease
PS06.09 Alonso Sastre Marcos (Madrid)

conventus

CONGRESSMANAGEMENT

05:00-05:00	Re-accumulation of haemothorax, formation of empyema and need for
PS06.10	Video Assisted Thorascopic Surgery (VATS) following chest trauma Anna Galeva (Nottingham)
05:00-05:00	Recurrent appendicular abscess in an underlying malignancy: Can
PS06.11	emergency appendicectomy helpful? Navin Kumar (Rishikesh)
05:00-05:00	Periprosthetic acetabulum fractures – A systematic review of current
PS06.12	practice Michel Paul Johan Teuben (Zurich)
05:00-05:00	Factor VII testing in traumatic brain injury patients : An extravagance or
PS06.13	a clinical necessity? Rabab Hassan Eltejani Abdelrahman (Doha)
05:00-05:00	Strangulated inguinal hernia misdiagnosed as cellulitis: A hidden surgical
PS06.14	emergency with an unexpected twist Leman Damla Ercan (Istanbul)
05:00-05:00	Age distribution and mortality patterns from external causes over the last
PS06.15	five years in Brazil's largest metropolis Bruna Marin Marchetti (São Paulo), Eduardo Lucas Vicentini Pereira (São Paulo)
05:00-05:00	A close shave: The millimetric difference between a stable and a deadly
PS06.16	penetrating cervical injury Miguel Catarino (Ponta Delgada)

08:00–09:30

Visceral trauma 1 + WTC Quality of life after trauma

M2 (Plenary hall)

Vorsitz/Chair	Heura Llaquet-Bayo (Sabadell)
Vorsitz/Chair	Jared M Wohlgemut (London)
Vorsitz/Chair	David Livingston (Newark, NJ)
08:00-08:18	QoL: What are we talking about?
MS01.01	Belinda Gabbe (Melbourne)

10/125

05 January 2026

Preliminary program, changes possible at any time

08:18-08:36	European perspective – Overview of current initiatives
MS01.02	Mariska A.C. de Jongh (Tilburg)
08:36-08:54	What doctors overlook: A non-physician perspective
MS01.03	Jeanette Finstad (Oslo)
08:54-09:12	The optimal screening methods and tools to assess for QoL after trauma
MS01.04	Karen Brasel (Portland, OR)
09:12-09:30	Actions for surgeons to improve patients' QoL
MS01.05	David Livingston (Newark, NJ)

08:00–09:30

Orthopaedic trauma 1 + WTC Soft-tissue injuries and management

M7 (Breakout 2)

Vorsitz/Chair	Charlotte Lameijer (Amsterdam)
Vorsitz/Chair	Christoph Nau (Frankfurt)
Vorsitz/Chair	Sushma Sagar (New Delhi)
08:00-08:18	Management of open fractures on the upper extremity
MS02.01	Philipp Störmann (Frankfurt)
08:18-08:36	Management of open fractures on the lower extremity
MS02.02	René D. Verboket (Frankfurt)
08:36-08:54	Principles in soft tissue management in open fractures
MS02.03	Charlotte Karlsson-Thur (Stockholm)
08:54-09:12	Vascular lesions in lower extremity injuries
MS02.04	Maeyane (Steve) Moeng (Johannesburg)
09:12-09:30	Burden of extremity injuries and way forward in low resource settings
MS02.05	Sushma Sagar (New Delhi)

08:00–09:30

Disaster & Military 1 + WTC

Disaster and military surgery in times of major geopolitical challenges: What have we learned from recent conflicts & disasters?

M6 (Breakout 1)

Vorsitz/Chair Aleš Fischinger (Ljubljana)

Vorsitz/Chair Mark Bowyer (Fairfax, VA)

Vorsitz/Chair Laura Haines (San Diego, CA)

08:00–08:18 A current overview of the situation in the Ukraine war – What must we not overlook!

MS03.01 Mykola Ankin (Kyiv)

08:18–08:36 The challenges and measures for preparing further resilience in Europe against the backdrop of geopolitical challenges

MS03.02 Gerhard Achatz (Ulm)

08:36–08:54 Putting TDSC to the test – Experiences from the terror attack in Magdeburg 2025

MS03.03 Felix Walcher (Magdeburg)

08:54–09:12 Pitfalls of hospital preparedness in mass casualty events

MS03.04 Laura Haines (San Diego, CA)

09:12–09:30 Trauma rescue mission, Myanmar earthquake

MS03.05 Sitthichai Kawachakul (Bangkok)

08:00–09:30

Guest symposium 1

IATSIC guest symposium

M8 (Breakout 3)

Vorsitz/Chair Hayato Kurihara (Milan)

Vorsitz/Chair Christine Gaarder (Oslo)

08:00–08:15 ATLS 11th edition – What's new and the role and limitations of ATLS in LMICs

GS01.01 Joakim Jørgensen (Oslo)

conventus

CONGRESSMANAGEMENT

08:15-08:30	Emergency department thoracotomy, indications and pitfalls
GS01.02	Pradeep Navsaria (Cape Town)
08:30-08:45	The new ESVS vascular trauma guidelines – Highlights
GS01.03	Carl-Magnus Wahlgren (Stockholm)
08:45-09:00	Thromboprophylaxis – The most recent guidelines
GS01.04	
09:00-09:15	Eratic – ERAS guidelines for trauma: The external assessment
GS01.05	Folke Hammarqvist (Stockholm)
09:15-09:30	How to secure trauma surgical competence in the current geopolitical situation
GS01.06	Tarek Razek (Montreal)

08:00–09:36

Oral session 1 (ESTES) Emergency surgery (ESTES)

E4 (Breakout 4)

08:00-08:08	Preoperative inflammation, measured by CRP/Albumin ratio, is associated with an increased risk of postoperative complications following major abdominal emergency surgery
OP01.01	Thea Helene Degett (Herlev)
08:08-08:16	Implementation of the acute mesenteric ischemia code: Early results from a prospective study in Spain
OP01.02	Maria Martin Ramos (Barcelona)
08:16-08:24	Open abdomen in non-traumatic emergencies: The Spanish National Prospective Multicenter Registry (NaROA)
OP01.03	Elena Manzo (Barcelona)
08:24-08:32	Predicting sepsis survival: A machine learning approach using real-world emergency data
OP01.04	Octavian Andronic (Bucharest)
08:32-08:40	Should ICU be the first stop for patients with severe isolated rib fractures? An insight from TQIP
OP01.05	Yousef Al Hussaini (Al Jahra)

conventus

CONGRESSMANAGEMENT

08:40-08:48	Clinical and etiological differences of small bowel obstruction in elderly versus younger adults: Insights from the ESTES SnapSBO multicenter database
OP01.06	Francesca Margherita Bunino (Milan)
08:48-08:56	Unnecessary and unsustainable? Routine pre-op bloods in stable abscess patients under GA contradict NICE guidance
OP01.07	Daisy Porter (Milton Keynes)
08:56-09:04	Laparoscopy versus laparotomy in the treatment of perforated peptic ulcer: A propensity score adjusted analysis
OP01.08	Gunnar Velde (Stavanger)
09:04-09:12	Patients with active cancer does not have an increased risk of cardiopulmonary, surgical, renal, or cerebral complications after major emergency abdominal surgery
OP01.09	Malthe Kirk Parner (Herlev)
09:12-09:20	Cholecystectomy or non-operative treatment for cholecystitis in elderly patients - Analysis by hospital practice pattern
OP01.10	Erik Osterman (Uppsala)
09:20-09:28	Development of a chest drain model using Aqueous Dietary fibre Antifoam Mix gel (ADAMgel) for training and education in areas with poor accessibility
OP01.11	Owen Haywood (Chichester)
09:28-09:36	Shift from 1th to 2nd generation of Cephalosporins as prophylactic antibiotics in orthopedic surgery and surgical site infections
OP01.12	Alba Shehu (Zurich)

08:00–09:30

Oral session 2 (WTC)

M4 (Breakout 5)

08:00–09:00

Section meeting

M3 (Meetingroom)

08:00–09:00

ePoster session 1

PP27.05 Right-sided traumatic diaphragmatic rupture without liver involvement: A case report
Christos Bartsokas (Nicosia), Pantelitsa Georgiou (Nicosia)

13:50-13:54
PP27.06 Isolated gallbladder injury with retroperitoneal hematoma post blunt trauma: A case report
Abeer Alnuaimi (Al Ain)

13:54-13:58
PP27.07 Knives out: Penetrating chest trauma
Bruna Santos (Viseu)

13:58-14:02
PP27.08 Blunt chest trauma leading to catastrophic left subclavian vessels rupture
Patricia Marrero-Marrero (Arico)

14:02-14:06
PP27.09 Bleeding control in penetrating neck trauma: A case report
Edgardo Picardi (Milan)

14:06-14:10
PP27.10 Management of the hemoperitoneum in blunt abdominal trauma treated with NOM and embolization
Agostino Falcone (Palermo)

14:10-14:14
PP27.11 Non operative management for pancreatic, splenic and renal injuries after abdominal blunt trauma
Mattia Molteni (Lecco)

14:14-14:18
PP27.12 Point-of-care ultrasound for pneumothorax in trauma: Assessing the concordance between a medical student and an expert after a teaching seminar
Giulia Duranti (Rome)

14:18-14:22
PP27.13 When time matters: Stab wound to the Inferior Vena Cava (IVC)
Patricia Marrero-Marrero (Arico)

14:22-14:26
PP27.14 Laparoscopic repair of a right-sided diaphragmatic hernia following blunt thoraco-abdominal major trauma
Anna Elisa Demontis (Milan), Michele Altomare (Milan)

14:26-14:30
PP27.15 The epidemiological profile of knife assault records: A comparative analysis between São Paulo and Brazil
Gisele Pereira Gomes Lino (São Paulo)

13:30–14:35

ePoster session 28 Miscellaneous I

ePoster terminal 4

13:30–13:34 Predicting difficult laparoscopic cholecystectomy using the parkland grading: An observational study in a tertiary center in Eastern Uttar Pradesh India
PP28.01 Mukul Singh (Gorakhpur)

13:34–13:38 Effectiveness of fibrinolytic therapy in traumatic hemothorax: A randomized trial of intrapleural streptokinase
PP28.02 Yadvendra Dheer (Lucknow)

13:38–13:42 An intraoral firecracker suicide case report and literature review case report
PP28.03 Satya Prakash Meena (Jodhpur)

13:42–13:46 Comparative effectiveness and safety of Hem-o-Lok® Clips versus endo loops for appendicular stump closure in laparoscopic appendectomy: A randomized controlled trial from Eastern Uttar Pradesh, India
PP28.04 Mukul Singh (Gorakhpur)

13:46–13:50 A novel anatomical description of the terminal peroneal artery and the terminal peroneal window: Important radiological findings and surgical implications
PP28.05 Sebastian Kirdar-Smith (London)

13:50–13:54 Injury patterns in fatal gun violence – Time to death and cause of death
PP28.06 Karolina Nyberger (Solna)

13:54–13:58 NIVATS in traumatic retained hemothorax: A case report
PP28.07 Sanjay Kumar (Patna)

13:58–14:02 Outcomes of angioembolization in penetrating hepatic trauma: Equivalent survival, longer hospitalization
PP28.08 Ting-An Hsu (Taoyuan City)

14:02–14:06 Feasibility of Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA) among non-compressible torso hemorrhage patients in limited resource situation
PP28.09 Panu Teeratakulpisarn (Khon Kaen)

conventus

CONGRESSMANAGEMENT

14:06-14:10 "Crossing Thresholds" A case of a through-and-through aortic arch injury from a gunshot wound
PP28.10 Juan Carlo Sandig (Davao City)

14:10-14:14 What are the experiences and challenges for prehospital clinicians caring for patients with potentially unsurvivable injuries?
PP28.11 Sophie Goddard-Hunt (London)

14:14-14:18 When air returns: Re-expansion pulmonary edema in a late-presenting pneumothorax
PP28.12 Rayanne Pinto (Ponta Delgada)

14:18-14:22 Does the "Weekend Effect" exist in major trauma outcomes?
PP28.13 Han Jie Koh (Singapore)

14:22-14:26 Survival after resuscitative thoracotomy from small rural hospital for blunt cardiac injury - A case report
PP28.14 Panu Teeratakulpisarn (Khon Kaen)

14:26-14:30 Mapping the evidence on the use of Molecular Adsorbent Recirculating System (MARS) in trauma-induced liver failure: A scoping review
PP28.15 Marcelo Augusto Fontenelle Ribeiro Junior. (Baltimore, MD)

14:30-14:34 Retained and recurrent hemothorax in multisystem trauma patients after discharge: Evaluating the incidence and risk factors
PP28.16 Dyanna Melo (London)

13:30-14:35 ePoster session 29 Miscellaneous II

ePoster terminal 5

13:30-13:34 The relationship between injury severity and fracture of the first and/or second ribs in blunt chest trauma
PP29.01 Ashraf F Hefny (Al Ain), Sara Aldhaheri (Al Ain), Nirmin Mansour (Al ain)

13:34-13:38 Are we hitting the mark? Anti Xa Guided VTE Prophylaxis dosing in critically ill trauma patients may mitigate bleeding events
PP29.02 Madison Harris (Philadelphia, PA)

OP12.12	identify life-threatening complications during prone spine surgery
	Michel Paul Johan Teuben (Zurich)

10:00–11:30 Oral session 13 (WTC)

M4 (Breakout 5)

10:00–11:00 Section meeting

M3 (Meetingroom)

10:00–11:00 ePoster session 37 Education

ePoster terminal 1

10:00-10:04	Project Arrebol: The impact of socioeducational extension activities on the development of soft skills in medical students
PP37.01	Beatriz Pinheiro (Campinas)
10:04-10:08	Training the surgical team with live animal simulation – Why and how?
PP37.02	Cara Swain (Stockholm)
10:08-10:12	CODE RED "hands-on, hearts in: Strengthening trauma surgery teams, skills and recruitment
PP37.03	Christan Deininger (Graz)

conventus

CONGRESSMANAGEMENT

10:12-10:16
PP37.04
Arrebol project: Promoting a socio-educational action of an extension project through the social network Instagram
Jun Inenami (São Paulo)

10:16-10:20
PP37.05
Simulation-based trauma education: Advancing team performance and system development in the United Arab Emirates
Nijamudin Kabeen (Ajman), Carlos José Yáñez Benítez (Dubai)

10:20-10:24
PP37.06
Abdominal splenosis after childhood abdominal trauma: An unusual finding years after splenectomy
Eunate Martinez de Rituerto Zeberio (Tolosa)

10:24-10:28
PP37.07
Implementation of an emergency surgery checklist: Impact on outcomes and protocol compliance
Hussameldin Hassan Dafalla (Dubai)

10:28-10:32
PP37.08
Structured trauma team observations at Karolinska university hospital – A current quality assessment project
Anna Granström (Stockholm), Gunilla Wihlke (Solna)

10:32-10:36
PP37.09
Robotic-assisted microsurgery versus conventional microsurgery: Comparison of ergonomics, acceptance and efficiency in microsurgical training exercises
Elena Kontaxi (Frankfurt)

10:36-10:40
PP37.10
Novel interdisciplinary trauma theatre team training: Simulation-based course
Pamela Adamowicz-Newman (London), Maryam Alfa-Wali (London)

10:40-10:44
PP37.11
Academic trauma leagues as catalysts for excellence in medical education: A Brazilian clinical study
Thalles Wilgner Neder (Governador Valadares)

10:44-10:48
PP37.12
Bridging education and practice: The impact of academic trauma leagues on medical training in Brazil
Thalles Wilgner Neder (Governador Valadares)

10:00–11:00

ePoster session 38 Miscellaneous VIII

ePoster terminal 2

10:00–10:04	Representing injuries in trauma patients: Development and evaluation of ICD-10 code embeddings for injuries
PP38.01	Kelvin Szolnoky (Stockholm)
10:04–10:08	Implementation of a fast track CT for geriatric patients with head injuries
PP38.02	Martine Alstveit Aarsland (Stavanger)
10:08–10:12	Analysis of preventability, survivability and causes of death in battlefield
PP38.03	during the "Swords of Iron" war
	Teva Amir (Jerusalem)
10:12–10:16	Injury characteristics of the swords of iron war
PP38.04	Teva Amir (Jerusalem)
10:16–10:20	Upper cervical spine injury with mild CT scan findings – The role of
PP38.05	diffusion MRI in spinal cord injuries
	Pedro Soneghet Pimenta (Campinas)
10:20–10:24	Tracheal lesion after horse kick – A rare case of blunt neck trauma
PP38.06	Mart Pais (Kuressaare)
10:24–10:28	Opportunities for improvement and clinical outcomes across trauma
PP38.07	quality improvement cohorts: A registry based cohort study
	Jonatan Attergrim (Stockholm)
10:28–10:32	Analysis of suicides by leap from height in Rio de Janeiro (2018–2024): A
PP38.08	retrospective study on the influence of the Covid-19 pandemic
	Bruna Marin Marchetti (São Paulo)
10:32–10:36	Development of non-technical skills in trauma scenarios: Insights from
PP38.09	LACITE-GV's participation in the unicamp realistic simulation competition
	Thalles Wilgner Neder (Governador Valadares)
10:36–10:40	Threading the needle's neck: A penetrating cervical trauma case report
PP38.10	Miguel Catarino (Ponta Delgada)

conventus

CONGRESSMANAGEMENT

10:40-10:44	An intelligent medical record generation system for trauma emergency: Development and application
PP38.11	Yanqiu Wu (Beijing)
10:44-10:48	Damage control surgery with open abdomen for severe intra-abdominal infection: Multidimensional analysis of outcomes
PP38.12	Francesco Prete (Bari)
10:48-10:52	Clinical and instrumental factors for difficult laparoscopic cholecystectomy for gallstones cholecystitis in the elderly: A multicentric study
PP38.13	Francesco Prete (Bari)
10:52-10:56	Mesenteric laceration after blunt abdominal trauma: A rare but Lethal Injury
PP38.14	Sofia Pimentel Moraes (Lisbon)
10:56-11:00	Optimizing aeromedical evacuation in combat: Balancing trauma system efficiency and patient outcomes during the Swords of Iron war
PP38.15	Teva Amir (Jerusalem)

11:30–12:00

Open theatre

exhibition & ePoster
area

12:00–13:30

Visceral trauma 4 + WTC Complex pancreatico-duodenal trauma

M2 (Plenary hall)

Vorsitz/Chair Stefan Leichtle (Falls Church, VA)

Vorsitz/Chair Tercio de Campos (Vila Buarque)

Vorsitz/Chair Mark. C.P.M. van Baal (Utrecht)

12:00–12:18 The role of ERCP and IR in managing duodenal and pancreatic injuries
MS28.01 Susan Brundage (Baltimore, MD)

conventus

CONGRESSMANAGEMENT

12:18-12:36	Pancreatic injury management in adults
MS28.02	Falco Hietbrink (Utrecht)
12:36-12:54	Pancreatic injuries in the pediatric population
MS28.03	Pål Aksel Næss (Oslo)
12:54-13:12	Injury to the biliary system and the role of ERCP
MS28.04	Tercio de Campos (Vila Buarque)
13:12-13:30	Duodenal injuries: Do's and don'ts of surgical management
MS28.05	Jeffrey D. Kerby (Birmingham, AL)

12:00–13:30

Orthopaedic trauma 4 + YESTES Complex elbow injuries

M7 (Breakout 2)

Vorsitz/Chair	Sarah Lif Böhm (Karlsruhe)
Vorsitz/Chair	Jan Paul Briet (Utrecht)
Vorsitz/Chair	René D. Verboket (Frankfurt)
12:00-12:15	Anatomy and biomechanics of the elbow in trauma
MS29.01	Jan Bernard Sintenie (Helmond)
12:15-12:30	Management of elbow dislocations. What needs to be operated?
MS29.02	Lars Peter Müller (Cologne)
12:30-12:45	How to approach distal humerus fractures
MS29.03	Carlos Eduardo Ordóñez Urgiles (Tarragona)
12:45-13:00	Radial head fractures – Reconstruction, resection or prothesis?
MS29.04	Charlotte Lameijer (Amsterdam)
13:00-13:15	Case based learning: Presentation of two cases
MS29.05	Bore Bakota (Karlovac)
13:15-13:30	The stiff post traumatic elbow
MS29.06	Johan H Scheer (Linköping)

conventus

CONGRESSMANAGEMENT

12:00–13:30

Disaster & Military 4 + YESTES + WTC Cooperation with Young ESTES: Training for disaster and military surgery – How can this work, is it desirable?

M6 (Breakout 1)

Vorsitz/Chair	Matthias Ring (Ulm)
Vorsitz/Chair	Carlo Brugiotti (Inca)
Vorsitz/Chair	Karen Brasel (Portland, OR)
12:00–12:15	Introduction and appeal to the next generation!
MS30.01	Carlo Brugiotti (Inca)
12:15–12:30	Answering the call: Expectations and requirements and outlook:
MS30.02	Experience from a humanitarian surgeon! Rochelle Dicker (San Francisco, CA)
12:30–12:45	Training military surgeons in Germany with the German “war surgery course”
MS30.03	Philipp Hube (Ulm)
12:45–13:00	Simulation and training – How much is possible alongside time spent at the patient's bedside?
MS30.04	Mark Bowyer (Fairfax, VA)
13:00–13:15	Perspectives of a Ukrainian surgical millennial . Kovalchuck (nn)
MS30.05	
13:15–13:30	Principles of disaster management
MS30.06	Karen Brasel (Portland, OR)

12:00–13:30

Guest symposium 10 ATLS 2026 – What is coming new

M8 (Breakout 3)

Vorsitz/Chair	Christoph Wölfel (Neuwied)
---------------	-----------------------------

12:00–13:30

Guest symposium 11

WTC session sharing experiences from around the world

E4 (Breakout 4)

Vorsitz/Chair	Subodh Kumar (New Delhi)
Vorsitz/Chair	Sharon Henry (Baltimore, MD)
Vorsitz/Chair	Juan Carlos Salamea (Cuenca)
12:00-12:18	Bridging gaps in trauma surgery: Lessons learned in Latin America
GS11.01	Juan Carlos Salamea (Cuenca)
12:18-12:36	Building a national trauma system and trauma database centered on regional trauma centres
GS11.02	Kyoungwon Jung (Ajou)
12:36-12:54	Trauma training in India: Lessons learnt
GS11.03	Subodh Kumar (New Delhi)
12:54-13:12	Establishment and promotion of China's trauma care system
GS11.04	Bao-Guo Jiang (Shenzhen)
13:12-13:30	Trauma surgery assistance team
GS11.05	Hiroaki Watanabe (Shimane)

12:00–13:30

Guest symposium 12

Implementing clear evidence: Recent trials that should change your practice

M4 (Breakout 5)

Vorsitz/Chair	Guy Putzeys (Bellegem)
Vorsitz/Chair	Kees-Jan Ponsen (Alkmaar)

12:00–13:30

Guest symposium 13

M3 (Meetingroom)

13:45–14:45

Experts on the hot seat – Societies competition!

M2 (Plenary hall)

Vorsitz/Chair Raul Coimbra (Moreno Valley, CA)

Vorsitz/Chair Shahin Mohseni (Örebro)

Vorsitz/Chair Christine Gaarder (Oslo)

14:45–15:15

Closing ceremony

M2 (Plenary hall)
